**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. **Claims 1-38** are rejected under 35 U.S.C. 102(e) as being anticipated by Grantges, Jr. (6,324,648 B1).

3. *In reference to claims 1, 10, 17, 21, 30, 37, and 38* Grantges discloses a system comprising a cache (column 5 lines 65-67); a cookie management process, wherein the cookie management process generates a cookie in response to receiving a request to access a resource within the data processing system from a requestor (column 4 lines 36-40 and column 10 lines 6-13); sends the cookie to the requestor (column 10 lines 23-25), stores the cookie and an identification of the requestor in the cache (column 11 lines 13-30); responsive to being presented a received cookie from a source, compares the cookie and the identification of the requestor to the received cookie and the source (column 10 lines 55-67); and allows access to the resource in response to a match between the cookie and the identification of the requestor with the received cookie and the source (column 11 lines 41-43).

4. *In reference to claim 18*, wherein the requestor is a server. The web browser request goes through the DMZ server 34 (column 6 lines 3-5).

The cookies disclosed by Grantges have a list of the applications available to the user (column 10 lines 15-17). Applications are stored in files therefore the resource that is requested is a file. The file location can be derived from the file name

5. *In reference to claims 7, 20, and 27*, wherein the identification of the requestor and the identification of the source are Internet protocol addresses. The use of an IP address is a well known method of identification on the internet.

6. *In reference to claims 2, 13, 22, and 33*, wherein access to the resource is allowed by accepting the second cookie (column 10 lines 59-67).

7. *In reference to claims 3 and 23*, wherein the system comprises: rejecting means, responsive to an absence of a match between the identification of the source and the second cookie and the stored identification and the stored cookie, for rejecting the second cookie (part 222 of Fig 8).

8. *In reference to claims 5, 14, 25, and 34*, wherein the source is a web server (part 28 Fig. 1).

9. *In reference to claims 6 and 26*, wherein the storing means for storing an identification of the source and the first cookie to form a stored identification and a stored cookie comprises: storing means for storing the identification of the source and the first cookie in a cache(column 5 lines 65-67).

10. *In reference to claims 8 and 28*, wherein the receiving means, sending means, storing means, comparing means, and allowing means are performed in a browser (Part 22 of Fig. 1).

Art Unit: 2131
